

LERC Report

The Northwest Lions Eyeglass Recycling Center is doing well. A small contingency of loyal volunteers is continuing to process glasses in the hopes that eventually we will be able to once again send glasses to mission trips all over the world.

Our NWLWEC board meets monthly and is moving forward making decisions to maintain the building and the warehouse. We continue to recycle glasses and add to our inventory of quality glasses ready to go on mission trips. We have had three small collections go out to Africa- one to Ethiopia, one to Chad and one to Uganda.

We are grateful to the Lions who have scheduled work parties to support NWLERC as well as Clubs that continue to support our work.

Sincerely,

PZC Suzanne Gayda
President of NWLERC
